

Manufacturer's Instructions and Information

CAREFULLY READ THESE INSTRUCTIONS BEFORE USING THIS PRODUCT

This product is designed to minimise the risk of injury from the specific hazards as identified by the marking on the particular product (see marking codes above). However, always remember that no item of PPE can provide full protection and care must always be taken while carrying out the risk-related activity.

Style Identification –

Description –

TOES2GO: T2GS, T2GM, T2GL

IMPACTO STEEL TOE CAP SANDALS. Used for work environments that carries risk of accidental toe damage or has a steel toe cap requirement. Perfect for visitors, temporary or casual workers. Can be comfortably worn over low-heel footwear, dress shoes, running shoes and most boots. Flexible and stretchy made of pliable PVC. Tread under sole help prevent slipping. Adjustable strap with hook and loop closure. Toe cap is colour coded to indicate sizes.

These garments comply with Annex II Personal Protective Equipment (PPE) Regulation (EU) 2016/425 and Regulation 2016/425 on Personal Protective Equipment, as amended to apply in GB.

In conformance with SATRA In conformance with SATRA M21: 2018 Toe Protection Overshoes excluding (clause 2.4.1 upper thickness.).

EU Declaration of Conformity: <https://www.impacto.ca/products/datasheet-ce-conformity-statements/>

UKCA Certification body: SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, UK (Approved Body 0321)

EU Certification body: SATRA Technology Europe Ltd, Bracetown Business Park, Clonee, Co. Meath, D15F8PH, Ireland (Notified Body 2777)

Fitting Instructions – This product can be comfortably worn over low-heel footwear, dress shoes, running shoes and most boots. For sizing use your shoe size. The toe cap is color coded to indicate size. If your footwear is bulky, choose next size up. Only wear your appropriate size. Products which are either too loose or too tight will restrict movement and will not provide the optimum level of protection.

Cleaning - Clean this product regularly with cold water and soft detergent. Use a soft brush to remove excess dirt. Never use caustic or corrosive cleaning agents. Allow it to dry slowly and naturally.

Warnings – Designed to offer short-term, limited protection against injury to the toes caused by falling objects or crushing. It is not substitute as full safety footwear. Not designed for climbing ladders or for environments where it is likely to come into contact with oils. Always ensure that the product is suitable for the intended end use.

Wear Life – The exact useful life of this product will greatly depend on how and where it is used as well as following storage and care instructions. It is therefore important that you examine it before use and replace it as soon as it appears to be unfit for wear. If it becomes damaged, it will NOT provide the optimum level of protection, and therefore should be replaced as soon as is practicable. Never knowingly wear damaged product while carrying out a risk related activity. This product does not have an expiry date.

Storage And Transport – When not in use, store this product in a well-ventilated area away from extremes of temperature. Never store the footwear underneath heavy items or in contact with sharp objects. If this product gets wet, allow it to dry slowly and naturally away from direct heat sources before placing it into storage. Use suitable protective packaging to transport this product, e.g. the original packaging.

Repair – If this product becomes damaged, it will NOT provide the optimum level of protection, and therefore should be replaced as soon as is practicable. Never knowingly wear damaged footwear while carrying out a risk related activity. If in doubt about the level of damage consult your supplier before using the footwear.

Performance and limitations of use – This product has been tested in accordance with SATRA M21. Designed for short term use and worn over footwear to provide toe protection against blunt trauma (impact and compression). However always ensure that the overshoes are suitable for the intended end use. These overshoes provide impact resistance at 100J of compression resistance at 10kN.
