

PRODUCT DATA SHEET

Art. No. 64.462.0 - AIRTWIST BLUE LOW S3 ESD HRO SRC

Protection: fiberglass toe cap and flexible FAP®lite midsole
Plus: ESD, reflecting elements, TPU heel protection, TPU eyelet element for additional strengthening
Upper: hydrophobised suede leather
Lining: BreathActive functional lining
Footbed: evercushion® CUSTOM FIT MID
Sole: URBAN EFFECT Triple density - 300°C heat and slip resistant rubber outsole with rotation point and two-layered midsole made of EVA and continuously high performance EFFECT.FOAM for excellent cushioning and energy return (70% above the standard)
Sizes / Width: 39 - 47 / 11

Rubber sole URBAN EFFECT

The HRO rubber sole, which is heat-resistant up to 300°C, has a special sole profile that drains off liquids and thus optimizes the grip (SRC). By increasing the point of rotation, friction and thus fatigue are greatly reduced.

Fiberglass toe cap

The high-tech fiberglass toe cap offers enormous durability, more toe freedom and is lighter than conventional composite caps.

EFFECT.FOAM®

Tireless comfortable!

- 60% energy return
- 47% less impact on bones and joints*
- extremely powerful and light
- permanently high level of comfort for fatigue-free work

* Dynamic energy absorption reduces the impacts to 1.6kN, the average for safety shoes is 3.0kN

FAP®lite- Durchtrittschutz

The latest generation of metal-free penetration protections:

- 50% lighter
- very high flexibility
- better cushioning and pressure elasticity
- cooling effect through breathability and sweat absorption

evercushion® CUSTOM FIT MID

The evercushion® CUSTOM FIT footbed adapt optimally to the needs of the feet and significantly increases comfort. The highly breathable foam offers very good cushioning properties.

Obermaterial

The homogeneous and insensitive surface of the suede leather makes this shoe more breathable and resistant in tough everyday work.
